The Daily Standard

Monday, January 23, 1971.

BIRTH.
On the 19th inst. the wife of Mr. John Dumas, Esq., of a son.

FUNERAL.—The funeral of the late John Costello took place yesterday afternoon, and was very largely attended. At 2 o'clock, the procession started from his late residence, headed by the Volunteer band, playing "The Dead March from Saul," and proceeded to the Catholic Church, Humboldt street, where a very impressive funeral service was given by the Rev. Father Sengler; after which, the procession started to the grave yard, where the remains were interred. The flags of the shipping and of the fire companies were displayed at half-mast during Saturday and yesterday. It must have been a source of gratification to the family of the deceased to see the funeral so largely and respectfully attended, it having been one of the largest which has taken place in the Colony for some time.

BURNS' ANNIVERSARY.—On Wednesday, the 25th inst., the St. Andrew's and Caledonia Society will celebrate the anniversary of Burns' birthday by a grand supper and ball, at the Albion hall. This promises to be one of the grandest affairs which has taken place for some time. The committee are doing everything in their power to make it a success. Dancing will commence about 9 o'clock. The music will be furnished by the orchestra. The best which can be procured in the city. The tickets have been put at a very reasonable price—only three dollars each, admitting a lady and gentleman.

BENJA VINE CULTURAL SOCIETY.—This is the name of a society which was formed in California in 1963, for the purpose of purchasing lands in Sonoma and Napa counties, raising all kinds of fruit, grain and plants thereon; and making wine, brandy and other liquors therefrom. The capital stock of the company is \$600,000. The winners of the company now bring a higher price in the market than any other California wines. Messrs. Stahlheim, Lowe & Co. are the agents for the society in this Colony, and are constantly receiving large consignments of the wines, which are a ready sale in this market.

POOR STEAK.—The steamer George S. Wright, Capt. Rogers, arrived at the harbor yesterday morning, from Sika, via Nanaimo and San Juan Island. She landed Capt. Rogers, and proceeded on her voyage to Portland. At San Juan Island, several troops and prisoners landed at the American garrison. There is no news of any importance from Sika.

FROM NANAIMO.—The steamer Grappler, Capt. Devereaux, arrived at 7:30 o'clock, last evening, from Nanaimo, with the barkentine Harrison in tow, loaded with stone, bound to San Francisco. Capt. Devereaux reports very heavy weather for the past week in the neighborhood of Nanaimo. The barkentine was cast off outside the harbor, and proceeded on her voyage to San Francisco.

INTERVIEW.—The committee appointed by the St. Andrew's and Caledonia Society to confer with committees from other charitable associations, with reference to the passage of a Bill to incorporate said societies, will have a meeting this afternoon.

CLOTHING SALE.—On Tuesday, J. P. Davies & Co. will sell a splendid assortment of blankets, dry goods, clothing, etc., ex-Lady Lampton, from England. Call at the store and examine the quality of the goods.

APPOINTMENT.—The Government Gazette of Saturday contains the appointment of Mr. James Kennedy as Postmaster at Langley, vice Mr. Allard resigned.

PEACE CONGRESS.—According to the last London news received, this is the day which was fixed upon for the meeting of the Peace Congress in London.

RE-OPENED.—Mr. Craswell has re-opened the saloon formerly occupied by Mr. John Wilson, on Government street, near James Bay bridge.

FROM NANAIMO.—The schooner Black Diamond arrived on Saturday afternoon, from Nanaimo, with 110 tons of coal for Messrs. Brodick & Co.

NO TELEGRAMS.—The telegraph line is still down. Consequently, we are without our usual dispatches this morning.

PASSED UP.—A steamer, supposed to be the California, passed up the Straits yesterday afternoon, bound for Port Townsend.

MEETING.—The Legislative Council will meet to-day, at 1 o'clock.

THE PROCLIVITIES FOR SENATOR.—It is astonishing that in this modern, and supposed to be more refined age, that a custom still exists which originated in the Fifteenth Century from an accidental circumstance. Made and Bachelors amusing themselves on the 14th of February, by drawing lottery-wise, a name to be taken seriously or in joke to represent their future wives or husbands. Their custom modernized, exhibits the same tendency, in the form of Valentines. Some chaste in appearance and sentiment, and others grotesque and calculated to please or offend. T. N. Hibben & Co. are prepared for the coming St. Valentine's Day in the modern and most pleasing form.

Memory presides over the past. Fell's Coffee over the present. The first lives in a rich temple hung with glorious trophies, and lined with toms, but Fell's Coffee has but one shrine and that is glory breakfast table. Its aroma walks the earth like a spirit and can be found for sale at every respectable dealer in British Columbia. Beware of spurious imitations.

A GILMORE, Merchant Tailor has removed his place of business to the store adjoining the Colonial Hotel, Government street four doors from Yada street, where he is prepared to sell at reduced rates, Custom Made Clothing and Gents' Furnishing Goods. Also Garments made to order according to the Latest Styles.

CARPETS.—Brussels and tapestry carpets of the latest designs, including the Royal Persian, with heart rug to match. A beautiful and large assortment of these goods have arrived by the Lady Lampton, and are now ready for sale at the London House, at very low rates.

CHRISTMAS PRESENTS.—A beautiful assortment of Fancy Goods for the season, will be ready for sale at the London House, on Saturday next, Dec. 17th.

EX PELICAN.—Officers' Water-Proof Rubber Coats, for sale at D. Green's clothing store, Government street, two doors from St. Nicholas Hotel.

Free Schools.

BURNS' ANNIVERSARY.—After Confederation shall have taken place the colony is to be placed upon a military footing, it is equally necessary that it should be placed on an educational footing, for educated and intelligent men are a stronger defence than the iron-clad, the needle-gun or metralleuse. We, of this generation, fall back upon the sword and the bayonet to sustain the laws; but if we expect our children to be capable of self-government, we must first place them in representative institutions, let us not stultify ourselves by failing to educate our children.

We are about to spring at once into a high degree of prosperity; the great energy of the Executive has suited us to the Dominion of Canada. Our mines yield immediate and rich returns for labor, and we are unworthy, the fairest inheritance the sun shines upon if we do not provide a system of Free Schools which shall furnish the means of education to every child as liberally as nature has bestowed her mineral wealth upon our land.

The property of the State should be taxed to educate the children of the State. The only just ground for taking money from the public purse is that the public good requires it. But says some, narrow minded miser, I have educated my children at my own expense; or I have no children to educate; why should I be taxed to pay for educating the children of others. But, children are at the age of maturity belong not to the parents, but to the State, to society, to the country. Government calls on them for the protection of life, liberty, property and the laws of the land. Again for the State the laborer adds to the wealth of the community; for the real wealth of a state lies in its amount of productive labor.

Educated labor is more productive than ignorant labor. The testimony of the workshops, mills and factories of the world, that intelligent artisans are far more profitable than ignorant ones. Raise the standard of education among working-men, and the productive value of property is increased, ignorance and vice are banished. Experience shows that the education of the masses affords better protection to good morals, and more security to the rights of property than all the criminal laws that can be made, or the prisons that can be built. Intelligence makes laborer respectable and honorable; the intelligent brain gives dignity to the toil of the hand. But we may base the necessity for general education on still broader grounds. Every man born into the world to reach it by his labor claims on education as an inalienable right as much as liberty, food, air or light. It is a Prussian maxim; whatever you would have appear in the life of a nation you must put it into the Public School. Our population is drawn from all nations. The next generation will be composed, one made up of the heterogeneous atoms of all nationalities. Nothing can angelize these and breathe into them the spirit of our laws and institutions but the Public Schools. No other agency under heaven can create these inharmonious elements into the form and beauty of the highest civilization. C. VICTORIA, Jan. 20th, 1871.

Meeting at Lillooet.

A public meeting was held at Lillooet on the 31st December, at which the following resolutions were unanimously passed, copies of which were ordered to be sent to the Standard for publication. Mr. Crozier acted as chairman, and Mr. William Chadwick as secretary.

Moved by A. T. Jamieson, seconded by T. G. Marshall:—Resolved, That this meeting records its disapprobation of the indifference and injustice exhibited by the Government of this Colony to the lawful demands of the mill owners, and traders in the Lillooet and Yada districts, for the abolition of Road Tolls on all colonial produce.

2d. That the Government cannot plead ignorance to the fact that the tolls on colonial produce have long and so patiently borne; as the facts have been full and truthfully shown, both by petition to the Governor and by the representation of our member in the Legislative Council.

3d. That nothing can be more obviously prohibitory and unjust than those tolls which live further from the Cariboo market should be compelled to pay to the Government one-fifth of what they produce for the privilege of using the main trunk road; whilst those farmers who live nearest to the same market, and use the same road, pay nothing.

4th. That this meeting enters its solemn protest against any further payment of Road Tolls on Colonial produce. That the imposition of one dollar per hundred weight, on Colonial flour, has destroyed our trade, and has reduced the value of our property fully one-fifth per centum. That we believe the exaction of one-fifth of what we produce to be without a precedent in the history of any British Colony.

5th. That this meeting requests the various districts throughout the Colony to urge their representatives to support the foregoing resolutions, and also to carry into effect a law for the abolition of Road Tolls on all Colonial produce.

Moved by J. Swartz and seconded by W. Brown:—Resolved, That this meeting protests against the granting of pensions to retiring government officials; That our public officers have, for the past twelve years, received very large salaries, for doing very little work; That some of the officials who now hold office have made large fortunes, and all have had an opportunity to realize a handsome competency; That the granting of pensions to such officers would be evidence of extreme folly and willful waste of public money.

Moved by Dr. Featherstone and seconded by A. T. Jamieson:—Resolved, That this meeting is of opinion that it is expedient to once more call the attention of the Government to the urgent necessity of having a trail made from Lytton to Lillooet, through the Valley of the Fraser. That for three years consecutively a sum of public money has been placed on the estimates, and raised by taxation, for this purpose; but, up to the present time, not one dollar has been expended to facilitate the increasing traffic, and relief of the farmers, whose only means of communication is by the old almost impassable Indian trail, or by the precarious and at times dangerous navigation of the River.

Moved by R. Sprout and seconded by T. Hooley:—Resolved, 1st. That the system of the government of this Colony has not now, and never had, the confidence of the people. 2nd. That this meeting will not accept Confederation without the simultaneous inauguration of Responsible Government.

3d. That the statement of Mr. W. T. Treach, that "the time had not yet arrived when the people of this Colony could with safety be entrusted with the power to govern themselves," was a misrepresentation, and indicated the most unpardonable ignorance and reverence to the fitness and wishes of the people of this Colony to control their own local affairs.

That a copy of these resolutions be transmitted to the member elected for this district, and also to the Victoria Standard.

POCKET AND OTHER DIARIES FOR 1871, and illustrated and other almanacs for 1871, to be had at T. N. Hibben & Co.'s Government street.

New Goods.—Joan's Gloves, etc., just received at the Victoria House.

Meeting at Lytton.

A public meeting was held at Lytton on the evening of the 29th inst., which was largely attended. Mr. George Coxon was elected to the chair, and Mr. S. G. Chadwick acted as secretary.

The following resolution was moved by R. Smith, seconded by Mr. Patch and unanimously passed. Resolved, 1. That it is the opinion of this meeting that the system of government existing at present in this Colony is unsatisfactory, and objectionable to the people not having their confidence.

2. That the new constitution given to British Columbia will never act in harmony with the wishes of the people of this Colony, mainly because it deprives them of free and responsible institutions, the introduction of which is indispensable simultaneously with Confederation.

3. That our member for Yale-Lytton District is requested to advocate the introduction of Responsible Government simultaneously with Union in accordance with the wishes of his constituents.

The Prussian Queen.

A correspondent of the New York Times thus writes of Her Majesty of Prussia:

Finding myself in Hamburg recently I availed myself of the opportunity of visiting the Queen of Prussia, who was stopping at the old palace of the Prince of Hesse. My acquaintance with Her Majesty dates as far back as the time when she was Princess Royal, and spent a considerable portion of the year at Coblenz.

THE QUEEN'S APPEARANCE.

Queen Augusta wears wonderful well, notwithstanding the anxieties which of late crowded upon her. She does not look at her age, and might well be taken for a woman of about forty-five or at most forty-seven. She is of a tall and commanding figure, regular oval face, fine dark expressive eyes and is very stately and measured in her movements. The first impression which she makes on strangers is that of dignified coldness but when she enters freely into conversation this wears off, and no one can leave her presence without being impressed with the kindness and charming frankness of her manner. But it is not her excellent heart merely that has won for her the esteem and love of the Prussian people. She is a woman of strong practical good sense and great natural abilities. She speaks fluently most of the European languages, is extremely fond of music, and is a liberal patron of the arts. Although she appears to keep entirely aloof from politics, it is well known that she exercises unbounded influence over the King—an influence which with truth, can be said to be exerted only in the interests of humanity and justice.

HER HOME.

Queen Augusta occupies one wing of the old palace of the Princes of Hesse and the Princess Royal the other. The building itself is gloomy and undesirable as a residence, and but for the English pleasure grounds, laid out by the late Princess Elizabeth, it would have but few attractions for Her Majesty and her daughter-in-law. They both live in very simple style, and keep only small establishments. At Baden it was the Queen's habit for years to occupy a small suite of rooms at a private hotel at the end of the promenade, and to have little or no retinue.

A Rain of Blood.

AN EYE WITNESS' ACCOUNT OF A REMARKABLE SHOWER.

The Sulphur Springs (Texas) Gazette contains the following most remarkable communication from a correspondent: Knowing that you are not given to sensationalism, I take this method of giving to the public an item, the truth of which I can testify as an eye-witness, as can also some others living in the same neighborhood. On last Sunday, the 2d November about 8 o'clock in the morning, some six miles south of Sulphur Springs, when not a cloud was to be seen to dim the vault of heaven, fell what can but be termed a rain or shower of blood, which lasted some eight or ten seconds. Its district was quite limited, and it fell in specks about the size of a quail shot, and in density about one hundred to the size of an ordinary plate. This shower was witnessed by Mr. Busby and family, who were seated around the breakfast table in the yard, at the time before stated, when, upon a sudden, came pattering the drops of blood upon the dishes and viands and all around. Mr. Busby immediately sent his little son for me, whose clothes were bespattered with blood on reaching my house. An hour elapsed, probably, before my reaching the vicinity, yet the leaves, grass and table bore distinctly the visible marks of blood. No one in the vicinity can give any explanation of the mysterious affair. I leave the matter for the scrutiny of science and the light of revelation.

U. P. R. R. BUSINESS.—The earnings of the Union Pacific Railroad Company for the five months ending October 31, 1870, were \$3,502,187; expenses, \$1,789,594; net income, \$1,712,593. The land sales of the Union Pacific Railroad September, October and November were 58,781 36-100 acres, for which the company received \$71,000 in their land grant bonds, \$1,708 in cash and \$145,689 in settlers' notes, secured by mortgages on the land sold. Total sales of land to December 9, 1870, were 285,404 12-100 acres, for which the company received \$1,270,748, or an average price of \$4.42 per acre.

SEWARD TO MARRY.—From a New York paper we get this: The Hon. William H. Seward is understood to be engaged to marry a young lady who accompanies the small party with which he is now making his voyage round the world. His friends in Washington expect that he will be married before his return home. He has been encouraged to this step by the conduct of his venerable friends Dr. Spring and Mr. Vanderbilt, both of whom entered into wedlock when over three score and ten.

A USURP, TOR.—A small miniature photographic apparatus has been invented which gentlemen can carry around in their pockets, to take the likeness of their lady friends at a moment's warning.

NARROW GAUGE RAILROADS.—Railroads of narrow gauge are becoming popular. Wales has one in which the rails are but two and a half feet apart, and Canada boasts of one in which they are distant from each other three and a half feet. The advantages of such railways are that they are cheaper than those of wide gauge, curves may be made sharper and more frequently, and without so much loss of motive power as the engine. The first of these roads in the United States is about to be made between Buffalo and Springfield; and it is said that some gentlemen of Reading, Lebanon, Harrisburg, and Allentown, in Pennsylvania, think of building a two feet and a half gauge road from Allentown to Harrisburg, to carry freight and passengers.

WON'T PART WITH CANADA.—The British European Mail says:—"Sir Stafford Northcote, in speaking recently against Canadian annexation with the United States, said he believed no other part of our Empire was of greater value to England. He said we should lose the resources of Canada developed by the completion of a great railway system, and it would then be most important that ocean communication should be made. As a home for English emigrants, Canada was invaluable, very few countries offering such advantages.

HONOR TO GEN. VON MOLKE.—A Berlin correspondent tells this: Whenever Count von Molke has been in Berlin he has for years been in the habit to take dinner at the St. Petersburg Hotel. Since he has left for the seat of war in France his chair, which has been crowded with a laurel wreath, has been left unoccupied at the accustomed place at the dinner table as, though the distinguished guest was expected to appear at any moment.

GENEROUS OFFER.—Easy Shaving and Hair Cutting shop Johnson, Esq. Shaving 25 cents. Hair Cutting 25 cents. 17.

The original cheap and Easy Shaving Shop at Fred Payne's, on the sunny side of Johnson street.

THE NANAIMO STRIKE.

The Coal Company's Explanation to the Public.

A CARD RECENTLY PUBLISHED purports to be that of a deputation from the Miners of Nanaimo, and solicits "sympathy and support in behalf of those who have been thrown out of employment by the reduction of wages to less than living rates."

The Vancouver Coal Company consider it would not be out of place to submit a few remarks in reply to the question and cause of the strike, the conduct of those who allege they have been "thrown out of employment" and their present attitude. It is well known that the Nanaimo and Colonial Coal Markets, have been so much depressed for some time, that the sale of the different varieties of coal, has been almost entirely stopped. Imported by the former place have been made at prices realizing less than cost and charges, and in the case of Nanaimo at a serious sacrifice to the Coal Company being unable to obtain their cost. The company in their desire not to disturb the working of the mine accumulated a stock of 20,000 tons at the first month, the workmen being kept regularly employed, and their wages paid with the regularity. In the anticipation of a lengthened continuance of the unsatisfactory and adverse state of the Coal Markets, the Company could see no alternative but to reduce their home as well as foreign prices in the hope of improving their business by widening the range of exports, and enlarging sales generally.

With this view on the 1st September last notice was given of a reduction to be made in wages (not at all corresponding with the proportion of decrease in selling rates), and on the expiry of this notice the miners held a meeting and decided to refrain from work at the reduced rate, and to ask those who stood at their post to stop, upon the understanding that the whole body of men should stand out till each of them was given his former position and wages! This was the first move towards the strike and the relative cause of it. At the meeting mentioned the men did not hesitate to propose that those who were willing to work should be ordered or compelled to join in the strike, to the credit of some of them, however, the word "compelled" was objected to and rescinded; but notwithstanding the expunging of the word, the demand for the whole body of men to stand out till each of them was given his former position and wages! This was the first move towards the strike and the relative cause of it. At the meeting mentioned the men did not hesitate to propose that those who were willing to work should be ordered or compelled to join in the strike, to the credit of some of them, however, the word "compelled" was objected to and rescinded; but notwithstanding the expunging of the word, the demand for the whole body of men to stand out till each of them was given his former position and wages! This was the first move towards the strike and the relative cause of it. At the meeting mentioned the men did not hesitate to propose that those who were willing to work should be ordered or compelled to join in the strike, to the credit of some of them, however, the word "compelled" was objected to and rescinded; but notwithstanding the expunging of the word, the demand for the whole body of men to stand out till each of them was given his former position and wages! This was the first move towards the strike and the relative cause of it. ENGLISH BAZAAR.
MRS. JOHNSTONE
Has removed part of the Stock of
FANCY GOODS,
TOYS, CANDIES,
PLATEDWARE, CUTLERY,
to the NEW FRENCH HOTEL,
GOVERNMENT STREET.
Where she intends carrying on the Business
she so successfully managed on Fort Street.
She begs to thank her former customers, and
hope they will patronize her in her more ex-
tensive undertaking, assuring them that as
she has made arrangements for the arrival of
GOODS by each vessel from European Manu-
factories, that she is in a position to offer her
wares at the **LOWEST PRICE** and
that no attention shall be wanting to give
the greatest satisfaction.
She takes this opportunity to warn all
purchasers of **CHEAP CANDIES**
as she sells none but from the well known
House of Warrington, whose guarantee
and Analysis has proved that their Candies
contain no whitening and other deleterious
matter, and therefore purchasers should not
look to much to Cheapness as the health of
themselves and their children.
MRS. JOHNSTONE would further intima-
te that

ERLIN and Oth r Wools

MAGIC SOAP.
Directions for Using Robinson's Magic Soap
for doing a Large Family Washing in Two
Hours, of Five or Six Dozen Pieces
Cut up one bar of the Soap, and put one-half
of it into your boiler with sufficient water to cover
your white clothes to be washed, and let the Soap dis-
solve, then put your clothes in, stirring them, and let
them just come to a boil; then pour out clothes and
water into a tub and let them soak twenty or thirty
minutes, stirring them round in the tub occasionally to
loosen the dirt. Such articles as collars, wristbands, or
any article very dirty, should be rubbed through the
hands a little while soaking in order to thoroughly
loosen the dirt before boiling.
2. While your clothes are soaking put the other half of
your cut Soap into your boiler, with sufficient clean
water to boil, and let it be heating. After your clothes
have soaked wring them out well and put into your boil-
ing water, and let boil from 5 to 10 minutes then rinse,
lift and hang out to dry. If the above directions are
followed, we will guarantee your clothes clean and
white.
3. For your colored and woolen clothes use the same
water you soaked and boil your white clothes with, only
wringing it up again, and pour it over your colored and
woolen clothes, and let soak the same as your white
clothes, also rubbing them through your hands while
soaking, if very dirty. Then rinse in clean water, warm
a few hands will bear, and you will thus accomplish a
large washing in two hours.
By cutting up one bar of this Soap into two gallons water,
and let boil until thoroughly dissolved, and then leave
to cool, you will have two gallons of beautiful SOAP,
as good as Robinson's for general house pur-
poses.

DR. CHING FUN-A CARD-EDITOR
STANDARD-Through the medium of your
paper I want to state the very great good that has been
done me by Dr. Ching Fun of this city, next door Kwon
Lee & Co. For 24 years I suffered with neuritis on
the brain, which caused the fall of three first-class
American physicians. Latterly bronchitis attacked my
right lung, and my condition was fully indicated. Des-
pairing of ever being cured I placed myself as a last re-
sort in the hands of Dr. Ching Fun, and after five months
treatment I am a well man and feel that I cannot count
the eminent Chinese gentleman's praises too loudly, so
that all my countrymen similarly afflicted may visit him
and find relief.
